languages

'I always keep my phone close at hand, but ever since I've started using Quizlet I stop thinking about work on my way home and work on my personal development. I enjoy watching myself getting better every time I take a tram.'

Karolína Morkusová
HR Manager

'It's such fun! My colleagues, the teacher and I compete [to see] who will match the words first. We even have a bet sometimes.'

Jan Sýkora
Product Specialist

Why do we use Quizlet in our lessons?

- ▶ We create **our own sets** focused on the lessons/areas taught
- ▶ It provides **topic-based vocabulary** sections
- ▶ It's **ideal for homework** (it's short and fun)
- ▶ Vocabulary sets are **always at students' fingertips**
- ▶ A typical Quizlet game lasts about **20 seconds** (How many can you play on your way to work?)
- ▶ The teacher can see students' **progress**
- ▶ It's **easy**, it's **online**, and students like it

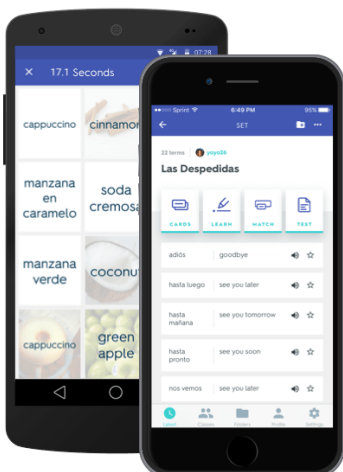

Our teachers have **already made a number of sets** which are available in the app. There are vocabulary sets from the popular textbooks **English File** and **Intelligent Business**, sets for conversation lessons, and specific vocabulary sets.

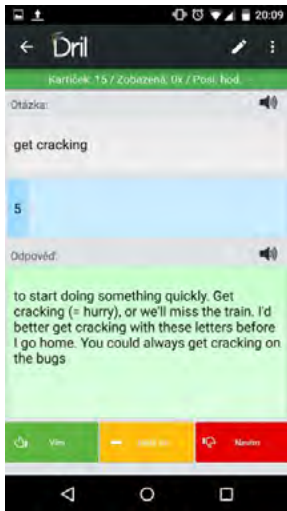

We also create our own **client-specific sets related to various industries** (i.e. pharmacy, automotive, technical drawings).
