

CONVERSATE X HAVE A CONVERSATION

CONVERSATE X CONVERSE (Have a conversation)

Don't say: "I am able to conversate in English."

Say: "I am able to converse in English."

Conversate doesn't exist in English. We use **to converse (have a conversation)** to say that we communicate with some people.

HOW TO IMPROVE SPEAKING ENGLISH

A – Anna, P – Peter

A: Do you have any tips on how to get better at English, Peter?

P: Well, in my opinion, the best way is to have a conversation in a cafe or a pub.

L: Really? Why do you **consider** a cafe as a good place to **improve** my English?

T: There's a relaxing and positive atmosphere which makes you feel comfortable and **attentive**.

L: Yes, I think you are right. But how about the noise? I cannot **pay attention** if the place is too busy.

T: Then you need to find a quiet place in the corner and **find out** when there is no **rush hour**. I recommend to **book** a table **in advance**.

L: Sounds like a good tip. Thanks! I'll **get in touch** with my English teacher and we'll **arrange** our next lesson in Café Louvre.

T: You are welcome. Good luck with your English!
